Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 8-9, 10-13, and 21-24, drawn to a method for software application development, classified in class 717, subclass 120.
 - II. Claims 14-20, drawn to processing a data file, classified in class 707, subclass 102.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, the different inventions are both methods directed toward application development (I) and usage or processing (II). Therefore, as indicated by the applicant in his remarks, the inventions are directed toward different inventions and should be treated as such.
